Mini Molds Collection

Classic Molds Collection

Truffly Made silicone molds are the latest advances in artisan confectionary making. The patented mold design eliminates the need for hand rolling and replaces hours of labor.

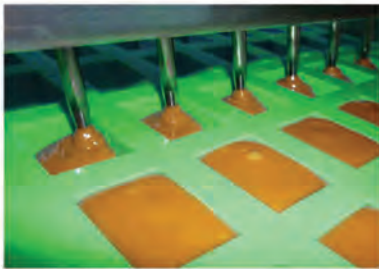

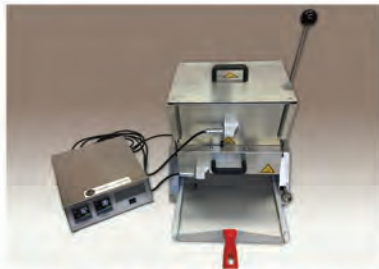

Truffly Made molds are the only molds that allows you to easily pop-out the mold contents in a one step process.

"Molds by Truffly Made are outstanding. As a professional chocolatier for many years, I will be purchasing more of these molds and gradually fading out our current ones. Highly recommended for home cooks and professionals alike."
